EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward Sherer on June 13, 2002.

The application has been amended as follows:

In claim 12, line 1, -- 1 -- has been inserted after "Claim".

Non-elected claims 21-32 have been deleted.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The closest prior art is deemed to be SE 9 802 303, published December 30, 1999. In considering SE 9 802 303, the examiner reviewed the English language equivalent WO 00/00287 (WO '287). WO '287 discloses forming mesoporous inorganic oxides by hydrothermally treating an organic ion exchange resin containing an inorganic material prior to or after removal of the organic ion exchanger. See, e.g., page 10, lines 1-7, and page 1, Example 1 of WO '287. However, neither WO '287 nor the prior art as a whole disclose or suggest forming a crystalline molecular sieve from a mesoporous inorganic material that exists in the pores of an organic ion exchanger, or from a mesoporous material that has been formed in the pores of an organic ion exchanger and the had the ion exchanger removed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
